

D Tailors Marketplace

Project Requirements Document

Vision

A marketplace connecting tailors, employers, fabric sellers, embroidery specialists, bead sellers and fashion suppliers.

User Types

1. Vendors: upload/display products. 2. Employers: post tailoring jobs. 3. Tailors: create profiles, search jobs and vendors by city/state/country.

Core Features

Authentication, profiles, product listings, job listings, search by location and category, ratings/reviews, contact via WhatsApp, phone, social media, featured listings, notifications, admin dashboard.

Ease of Use

Simple interface with large buttons, icons, step-by-step posting, minimal text, support for local languages/voice guidance.

Admin

Manage users, products, jobs, categories, reviews, reports and analytics.

Future

Premium listings, verification, payments, delivery integration, AI recommendations.
